(d) what is the actual quantity of available water today?

THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SHRIMATI BIJOYA CHAKRAVARTY): (a) Yes, sir.

- (b) Due to sustained diversion of Ganga Water into the Bhagirathi-Hooghly river round the year through the Feeder Canal, navigability of the Calcutta Port has been maintained as well as the salt intrusion into Hooghly river reduced.
- (c) The Farakka Barrage Project was planned to divert a maximum of 1,134 cumec (40,000 cusec) of water through the Feeder Canal into Bhagirathi-Hooghly river. The actual quantum of water carried by the Feeder Canal would depend on the quantum of Ganga discharge at Farakka, which varies throughout the year.
- (d) During the first 10 days of March, 2001, the average flow of Ganga at Farakka was 1820 cumec out of which 915 cumec was diverted into the Feeder Canal

Irrigation projects under construction

†2692. SHRI RAJIV RANJAN SINGH 'LALAN': SHRI RAM JETHMALANI:

Will the Minister of WATER RESOURCES be pleased to state:

- (a) whether irrigation projects are under construction in the country;
- (b) if so, the total number of these projects alongwith the names and locations thereof; and
- (c) the irrigation capacity and the total amount spent on construction of these projects?

THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SHRIMATI BIJOYA CHAKRAVARTY): (a) to (c) The details regarding major projects under construction in the country are given in the enclosed Statement.

[†]Original notice of the question was received in Hindi.

[20 March, 2001]

RAJYA SABHA

Statement Ongoing projects of IX Plan-Major Projects

Th. Hectares

Talks with Bangladesh and Nepal on river water sharing

- 2693. SHRI K. RAHMAN KHAN: Will the Minister of WATER RESOURCES be pleased to state:
- (a) the details of agreements arrived at by the Joint River Commission in its meeting held in Dhaka regarding sharing of water of common rivers by India and Bangladesh;
- (b) whether Government propose to hold bilateral talks with Nepal in resolving problem concerning common rivers; and
